Mylappre, Madras 4, India

Dear Dr. Ramakrishnan,

Many thanks for your letter of September 9 enclosing the revised version of your paper. I am now in agreement with your paper - in fact, I think it makes a very nice contribution. However, I felt that the style and arrangement needed some further improvements. And in order to save time, I have made these changes and submitted the new copy to the Astrophysical Journal. I hope you will forgive me for having taken this liberty. But I am enclosing a carbon of the new version and if there is anything in my changes which you do not approve, would you please write to me by return air mail and I shall make the necessary amendations. If your corrections are not too many, the paper should make the November issue of the Astrophysical Journal.

With best wishes,

Yours sincerely,

S. Chandrasekhar
